

# Consent For Treatment - Drop Off

Owner \_\_\_\_\_ Patient \_\_\_\_\_

Canine Feline Other \_\_\_\_\_ Male Female Breed \_\_\_\_\_ Age \_\_\_\_\_

Due to limited appointment times not all patients can be seen of a scheduled appointment. This drop-off service is done to allow your pet to be seen and treating in a timely manner instead of postponing until an available appointment. Your pet will be taken care of as time permits during the day so an exact time of completion can not be given. If your pet has any serious problems it will be examined and treated accordingly. Because of time constraints the veterinarian will not always be the person who contacts you about the appropriate treatment of your pet.

**I can be reached at the following phone number(s) while my pet is at the hospital:**

**For Surgery or Sedation please answer and initial the following questions?**

- Pre-anesthetic blood work is recommended for all pets prior to any procedure that uses a general anesthesia. This blood work will not prevent complications to anesthesia but may reduce the risk of complications by postponement or change of a procedure, operation, or anesthetic protocol.

**All pets over the age of 2 will require age appropriate bloodwork for procedures estimated longer than 15 minutes. All pet with medical problems may be required to have appropriate bloodwork to determine if anesthesia is safe.**

**I have read and understand the above statements. \_\_\_\_\_ Initials**

**Under 2 option for routine surgeries:**

**I decline the recommended preoperative testing for my pet under 2 years old. Decline \_\_\_\_\_ Initials**

- With modern anesthetics and procedures your pet is relatively safe in undergoing the procedure it is here for. However, unforeseen complications can always occur. Additional supportive, IV fluids, can be done to improve the safety of your pets anesthesia and surgery. IV fluids will better support the cardiovascular system and reduce stresses on the kidneys and liver.

**All pets will have an IV catheter placed for their safety regardless of age for anesthetic procedures  
All pets over the age of 7 will require IV fluid support for procedures estimated longer than 15 minutes.  
All pets will require IV fluid support for major procedures that are not routine in nature.**

**I have read and understand the above statements. \_\_\_\_\_ Initials**

**Under 7 option for routine surgeries: Do you want additional fluid supportive care done?**

**This service is an additional cost Yes No \_\_\_\_\_ Initials**

- Surgery and other procedures can cause some discomfort for your pet. Many pets do well with rest alone but others may recuperate much faster with pain management. Pain medications are part of our routine surgical protocols.

**Pain medication will be given at the hospital for invasive surgeries.**

**I have read and understand the above statements. \_\_\_\_\_ Initials**

**Home Medication Option: Do you want your pet to have pain medications sent home?**

**Pain medications sent home cost and additional \$25.00 - \$50.00 Yes No \_\_\_\_\_ Initials**

- We can permanently identify you pet with the Home Again pet retrieval system. An implanted microchip will give your pet an identification number that can be checked across the country by Veterinarians, Animal Shelters, and Animal Control.

**Do you want a Home Again Microchip for your pet?**
